

MAJI SYSTEMS, INC. ANNOUNCES PARTNERSHIP WITH COMPUTER ASSOCIATES

*Customers Gain Customized Solutions and Accelerated Time-to-Benefit for
Technology Infrastructure Development, Deployment and Management*

Marlboro, MA June 27, 2005-- Maji Systems Inc, an IT services organization that helps businesses in the Northeast US manage and protect their data assets, today announced a partnership with Computer Associates International, Inc. (CA), one of the world's largest management software companies. The partnership will enable Maji's customers to effectively deploy CA's BrightStor storage management solutions to optimize the reliability and performance of their storage infrastructures.

Based in Marlboro, MA, Maji Systems is a provider of technology services and solutions that drive down infrastructure costs and increase the operational efficiencies of IT organizations. Using CA's proven solutions, Maji Systems is helping its customers achieve these goal and gain competitive advantage.

CA has also engaged Maji CEO Pat Barton and Maji President Phil Tsihlis as key speakers for their ongoing executive seminar series entitled *Analysis of Effective Storage Management*. This successful seminar has helped organizations address the business challenges of managing data growth and maximizing data storage efficiencies.

"IT can offer customers tremendous competitive advantages if they acquire the right technology and if they implement it in a way that best aligns with their business needs and objectives," said Pat Barton. "The unmatched breadth and quality of CA's unique technology portfolio makes it ideal for addressing our customers' IT challenges. This partnership will enable us to take full advantage of that portfolio to craft highly customized IT solutions that deliver maximum business impact with minimized ownership costs."

As a member of CA's Enterprise Solution Provider (ESP) Program, Maji Systems has access to resources from CA and selected value-add distributors that enable it to develop, market, deliver and implement a complete range of advanced technology solutions and integration services to provide optimum value to its customers.

More than 80 percent of Global 100 companies and 95 percent of the Fortune 500 rely on CA software to manage infrastructure, security, storage and the application life cycle. Founded in 1976, CA is headquartered in Islandia, N.Y., and operates in more than 140 countries.

"CA is pleased to enter into this business partnership with Maji Systems," said Bernadette Nixon, CA's Northeast General Manager. "This alliance will enable Maji's customers to reap the full potential benefits of CA's award-winning technology solutions in a way that best suits their particular needs and resources."
